

Elsa Elisa Yohana Sianturi

Central Jakarta, Indonesia | +6285834465676 | elsaelisayohana05@gmail.com
<https://www.linkedin.com/in/elsaelisayohanasanturi/>

Informatics Engineering graduate with hands-on experience using Python, SQL, and PostgreSQL to collect, clean, validate, and prepare data for analysis. Built data processing workflows for retail sales, social media analytics, and document search projects, with attention to data quality and reusable outputs. Interested in developing reliable data pipelines, data integration processes, and data warehouse solutions as a Data Engineer.

EDUCATION

Bachelor of Informatics Engineering | Institut Teknologi Sumatera

Agu 2022 - May 2026

Lampung, Indonesia

- GPA: 3.63 / 4.00
- Relevant Coursework: Database Management, Probability and Statistics; Data and Information Visualization

RELEVANT EXPERIENCE AND PROJECTS

Retail Sales Forecasting & Promotion Analysis

Aug 2026

Tech: PostgreSQL | SQL | Microsoft Excel | Power Query

- Built PostgreSQL staging tables for retail sales, store, and feature datasets; standardized data types, dates, and missing values to prepare consistent analytical data across 45 stores and 81 departments
- Applied SQL data quality checks and created reusable analytical outputs for sales, promotion, and holiday analysis in Excel dashboards
- Supported a 100-series forecasting pilot that reduced weighted forecast error (WMAE) by 14.32% compared with a 13-week seasonal baseline

Instagram Tourism Analytics | Data Analysis Project

Jun – Jul 2026

Tech: Python | Pandas | Power BI

- Retained 2,689 high-quality image records by cleaning and validating an initial dataset of 7,178 Instagram records using Python and Pandas to analyze tourism trends in Lampung Selatan
- Prevented duplicate engagement totals by separating image and post-level calculations using unique URLs in order to build an accurate 3-page Power BI analytical dashboard

AI Engineering Intern | PT Pertamina Hulu Rokan

Jun – Jul 2025

Tech: Python | TF-IDF | RAG | LLM

- Developed a Python workflow to process land agreement documents and prepare searchable text for a retrieval-based question-answering prototype
- Evaluated generated answers against reference responses, achieving 73.33% answer accuracy, and presented findings to operational stakeholders

Teaching Assistant | UPA TIK ITERA

Aug 2023 – Jun 2026

Lampung, Indonesia

- Facilitated successful laboratory sessions for 60+ students by explaining technical concepts and assisting with troubleshooting across three computing and design courses

Self-Harm Meme Identification | Bachelor's Thesis

Aug 2025 – Apr 2026

Tech: Python | PyTorch | Hugging Face

- Prepared robust data for model training by collecting, labeling, and curating a final dataset of 2,178 images to build a comprehensive processing pipeline
- Achieved an F1 score of 96.1% on the validation set by extracting and combining text and image features using deep learning for accurate content identification

SKILLS AND ACHIEVEMENTS

- **Data Engineering:** SQL, PostgreSQL, data cleaning, data validation, data transformation, relational data modeling
- **Programming:** Python, Pandas
- **Analytics & Reporting:** Power BI, DAX, Excel, Power Query
- **Tools:** Git, GitHub, Linux, AWS fundamentals
- **Professional Skills:** Highly detail-oriented, problem-solving, stakeholder communication, cross-functional teamwork, analytical thinking
- **Achievements:** Pertamina Sobat Bumi Scholarship Recipient (2024) | Second Place, Point Project 2.0 UI/UX Competition (2024) | Speaker, Scholarship Information Session, HMIF ITERA (2024)

LEADERSHIP

Head of Academic and Scholarships Division –HMIF ITERA Jan 2025 – Dec 2025
Lampung, Indonesia

- Led 10 members and collaborated cross-functionally with other divisions to deliver four academic programs, including an information session for 70+ students

TRAINING AND CERTIFICATIONS

- **SQL (Advanced)** — HackerRank | Sep 2026
- **AWS re/Start Graduate** — Orbit Future Academy in collaboration with Amazon Web Services | Mar – Jun 2026
- **Data Visualization Fundamentals** — Dicoding Indonesia | Jun 2025
- **Getting Started with Python**— Dicoding Indonesia | Mar 2024
- **Structured Query Language (SQL) Fundamentals** — Dicoding Indonesia | Mar 2024
